

# COMPANY PROFILE

---

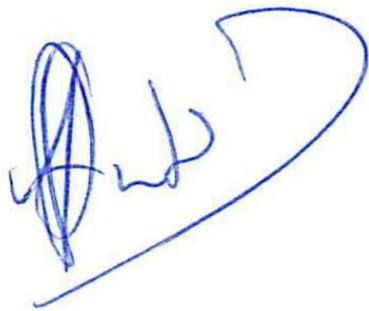

# WHO ARE WE?

---

Elwa Energysavers was established in Australia in 2008. Specialising in the design, manufacture and installation of contemporary and energy efficient LED lighting systems and electric instantaneous water heaters, Elwa has been leading the game in innovation for some time.

Elwa Energysavers seeks to provide customers with a rapid ROI on their LED upgrade. Our business model is designed to eliminate the inefficiencies found in traditional lighting supply chains and pass savings on to customers. Elwa have production facilities in Germany, Australia and China, which allows us to ensure the products are of the highest quality and are perfectly fit for each purpose.

Kind Regards,

Jan Antonides  
CEO and Founder  
Elwa Energysavers Pty Ltd

# CUSTOMER FOCUSED = QUALITY FOCUSED

---

**Each Elwa LED product goes through series of quality tests to ensure they are accredited and capable of attracting Government incentives. Accreditation testing covers;**

- High power factor
- Right CRI for every application
- Good LED light source efficiency
- Wide range of beam angles available
- Various colour temperatures
- Minimum lumen depreciation
- Low premature lamp failure rate
- Warranty guarantees

**All tests must be accompanied by the following acceptable documentation;**

- Test report using IES LM7908 from a laboratory accredited under the ILAC (i.e. CNAS or NATA)
- EMC test report using IEC 6100032 and IEC 61547 from a laboratory accredited under ILAC (i.e. CNAS or NATA)
- A safety certificate (Certificate of Suitability) issued by SAA or TUV Rheinland (Aust.)

## **Recent project**

Elwa recently completed another project with OTR service stations. All lighting was supplied by Elwa for the Woodville South site, with high quality, high lumen, and energy saving specialised light fittings.

# WATER HEATER SERVICES

---

**Elwa has been designing and manufacturing water heaters since 2008 in Australia. This has cemented our place as a trusted associate for hydraulic services and innovative water heater products.**

**Each Elwa Hotrun water heater is guaranteed to deliver:**

- Pressure resistance up to 3MPa (leak free guarantee for 3 years)
- Remote life time monitoring and diagnostics for fault conditions
- Only use the exact amount of power required
- Built in temperature limiter
- Size of an A4 piece of paper
- Single, two phase and three phase options
- Digital temperature control and display

All Elwa water heaters are designed and manufactured in Australia so that they are perfectly suited to the volatile Australian climate. The variable power supply selection of the X range, and the built in temperature limiter, means the water heaters can be used in a number of different applications.
